Randy Susan Meyers is the internationally bestselling author of five novels, one novella, and a co-authored novel. She also edited a book of essays.

The Massachusetts Council of the Book chose three of Meyers' books as *Must-Read Books*, writing, "**The clear and distinctive voice of Randy Susan Meyers will have you enraptured and wanting more.**"

When her debut, *The Murderer's Daughters*, was chosen as 'Community Read' by the Federation of Jewish Philanthropies, it seemed like kismet. New York's chapter changed her childhood with camp scholarships. Those summers and the Brooklyn Public Library saved her life.

Three of her bestselling novels, *The Murderer's Daughters*, *Accidents of Marriage*, and *The Widow of Wall Street*, were finalists for the Mass Book Awards, along with garnering other awards and recognition, including being an Indie Next Choice, being included on Kirkus' Best Fiction of the Year list, highlighted twice in People Magazine Picks, and receiving France's *La Livre de Poche* (Reader's Choice) award. She teaches writing seminars at Boston's Grub Street Writers' Center.

Her exploration of family constellations, politics, as well as racial and cultural politics is informed by her years working with criminals and their families as a director of a Batterer Intervention Program and a decade working as a director of Boston's Community Centers and as a founder and director of the Mission Hill Community Centers.

She probably gained the most insight into gender politics during her four years as a bartender in a small Boston neighborhood bar.

Meyers lives in Boston with her husband. She teaches at Boston's Grub Street Writers' Center.
